Handy Hints For Your First Visit

You will arrive at the farm and pull up into a parking space.

One of our team members will come and say hi when you arrive.

If this is too much or you are not ready to say hi just let us know - we work at your pace

When you get out the car you will be shown around the farm and offered a drink

You will have an opportunity to see the horses and may even get to stroke or lead the horses

Our main safety rule is that we need you to wear a hat when you are in a space with a horse. We have hats available and will make sure they feel comfortable when you wear them

We want you to have fun and enjoy yourself
